

I have a case against the Federal Aviation Administration/U.S. Federal Government in the United States Supreme Court (Docket 07-8588), and U.S. Court of Appeals for the Sixth Circuit (Docket 07-3897).

[www.federal-fraud.com](http://www.federal-fraud.com)

I have presented the evidence which documents the Medical Fraud and Attorney Fraud at the FAA.

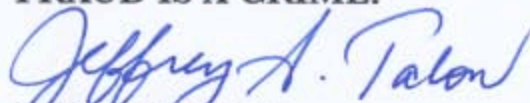

The FAA has attributed to the pain/suffering and prolonged the defamation of character which began at United Airlines in Illinois.

The FAA has the opportunity to show it is; willing to negotiate "in good faith" with Jeffrey A. Talon as part of the resolution of U.S. Supreme Court (Docket 07-8588), and U.S. Court of Appeals for the Sixth Circuit (Docket 07-3897).

I have found a solution for Degenerative Disc Disease (DDD). The solution is at Stenum Hospital in Germany. Dr. Ritter-Lang's Diagnosis, Therapy, and Letter, are attached.

The FAA's payment for my First Class flight, surgery, and hotel expenses (approximately \$100,000 USD), would provide evidence of the FAA's initial "in good faith" negotiation. I can document the medical evidence in U.S. Supreme Court Docket 07-8588, and U.S. Court of Appeals for the Sixth Circuit (Docket 07-3897). The FAA's Certification of the Spinal Kinetics M6 Cervical and M6 Lumbar intervertebral prosthesis would provide 21st Century medical technology to the treatment of Degenerative Disc Disease (DDD) in the United States, and stop the FRAUD at the FAA. This written "in good faith" negotiation/offer expires on March 17, 2011.
